

### **2.3.4 - Preparation and adherence to Academic Calendar and Teaching Plans by the institution**

#### **1. Academic Calendar:**

The Dean (Academics) prepares the academic calendar every semester in advance. It consists of the list of working days, class committee meeting schedule, internal assessment test, model examination and Tentative End semester theory and practical examination dates, symposium, conferences, HoDs Meeting, IQAC meeting, holidays, festivals etc. Academic calendar provides the total effective working days available in a given semester. Then the time table Incharges prepares the time table according to the Academic Calendar which was approved by the Head of the Institution.

#### **2. Teaching Plan:**

Heads of the departments conduct meeting with their respective faculty members well in-advance of commencement of the semester course work, and allocate subjects. The subject in-charges concerned prepare Lecture plan for their respective subjects which are duly approved by the Head of the department. The number of hours in the teaching plan is framed depending on the credits of the course and made available to the students. This schedule is placed in the course file at the beginning of the semester. Effective implementation of the lesson and lecture schedules is monitored by the Head of the Department as well as academic auditors. Then the faculty members are asked to prepare unit notes and Lab manuals which are approved by Academic coordinator, HoD, Dean (Academics) and Principal. Due to pandemic situation, softcopies are posted in their respective Google Class room.
