7.1.11 - Institution celebrates / organizes national and international commemorative days, events and festivals

The following important days were celebrated in the college.

S.No	Name of the Activity	Date
1	Republic Day	26.01.2021
2	World Water Day	22.03.2021
3	World Health Day	07.04.2021
4	World Earth Day	22.04.2021
5	World Malaria Day	25.04.2021
6	World Telecommunication Day	17.05.2021
7	World Environment Day	05.06.2021
8	Independence Day	01.08.2021

1. Republic Day & Independence Day Celebrations

Every year Republic day is celebrated on 26th Jan by organizing activities highlighting the importance of the Indian Constitution. Independence Day is also celebrated every year to highlight the struggle of freedom and importance of the Indian constitution.

2. World Water Day

Sengunthar Engineering College, Institution Innovation Council in association with the Institution of Engineers [India], Erode Local Centre organized a Webinar on “Value of Water” in the view of **World Water Day** on 22.03.2021 in the Google Meet.

The Convener of the Webinar was Dr.M.Sennirajan, Associate Professor & Head, Department of Civil Engineering, SEC and the organizing secretaries were Dr.C.Venkatesh, Chairman IEI - ELC; Principal - SEC; President - IIC and Dr.M.Selvakumar, Vice President - IIC ; Associate Professor - Mechanical, SEC

The inaugural function has been held at 12.00 noon in the Google Meet and Youtube Platform in the presence of Secretary and Correspondent Prof.A.Baladhandapani, Dr.C.Venkatesh, Principal – SEC, Chairman, IE (I)-Erode Local Centre and Dr.R.Nallusamy, Honorary Secretary, IE (I)-Erode Local Centre, Erode. The welcome address was given by Dr.C.Venkatesh, Head of the Institute, SEC and the briefing about the Resource Person was given by Mrs N.Kiruthika, Assistant Professor / Department of Civil Engineering, SEC.

The session followed by Prof. P.Thangarasu, AsP/Chemistry, SEC and Prof. S.Anandkumar, AP/Civil, SEC had delivered the lecture on “Value of Water”.

Valedictory function has been held at 01.00 pm in the presence of Dr.C.Venkatesh, Chairman, IE (I) - Erode Local Centre and Dr.R.Nallusamy, Honorary Secretary, IE (I)- Erode Local Centre

Mrs N.Kiruth/Mechanical, Sengunthar Engineering College, Tiruchengode proposed the vote of thanks.

3. World Health Day

S.No	Date	Name of the activity	Place of activity
1	07.04.2021	World Health Day	Cadets hometown

Health is not just about physical well-being but also about the mental and social aspects. It is central to human happiness and well-being. It also makes an important contribution to economic progress, as healthy populations live longer and are more productive. The theme for this year's global health awareness day is Building a fairer, healthier world. The theme for world health day 2021 is **Building a fairer, healthier world**. Millions of people around the world are prey to many terrible diseases. Therefore, to raise awareness about the overall health and well-being of people across the globe every year World Health Day is celebrated.

To achieve good health the following points are discussed like Eat healthy meals, Add more fruits and vegetables to your diet, Drink a sufficient amount of water, regular exercise, Washing hands before eating, enough sleeping for the good metabolism, Practice

meditation, Avoid smoking, tobacco, alcohol, caffeine, and sugary drinks. World Health Day also focused on the safety of health facilities and the readiness of health workers who treat those affected by emergencies. It also aims to mobilize action on depression. This condition affects people of all ages, from all walks of life, in all countries. It impacts on people's ability to carry out everyday tasks, with consequences for families, friends, and even communities, workplaces, and health care systems. Health centers and staff are critical lifelines for vulnerable people in disasters – treating injuries, preventing illnesses and caring for people's health needs. Often, already fragile health systems are unable to keep functioning through a disaster, with immediate and future public health consequences.

The main aim of the day is to create awareness of a specific health theme to highlight a priority area of concern for the World Health Organization on 07.04.2021. Our college organized “World Health Day” by National Cadet Corps Cadets. As a part of this, cadets actively participated in the fitness activities like Practicing Yoga, Running to create awareness about fitness to the others.

Earth Day is commemorated every year to highlight environmental issues like loss of biodiversity, increasing pollution, etc. Changes in biodiversity affect ecosystem functioning and cause significant disruptions in ecosystems. "Tree Plantation Day " continuation of World Earth Day which was celebrated on 22 April 2021 as an international event celebrated around the world to pledge support for environmental protection. The year 2021 marks the 51st anniversary of the annual celebrations. This year's theme for Earth Day is 'Restore Our Earth' which focuses on natural processes, emerging green technologies, and innovative thinking that can restore the world's ecosystems. Our college mission is to protect, restore and enhance planting areas. It takes a holistic view on greening and focuses on multiple ecosystem services along with carbon sequestration and emission reduction as co-benefits.

Global warming, climatic changes are the major changes which cause the change in the atmosphere. Making India green is an important goal created by Our Honorable Prime Minister. The government has also allocated 6.2 billion for tree-planting across the country. A Step ahead towards the promotion of green in our country and a role model to others. Our National Cadet Corps cadets took an active role in their hands along with Staff members and management planted saplings at Sengunthar Engineering College and also in their home to create a green campaign. As an initiative to others, our College took this role to create an eco-green environment which increases the level of oxygen and makes our environment green .Our aim is to protect, restore and enhance planting areas. It takes a holistic view on greening and focuses on multiple ecosystem services along with carbon sequestration and emission reduction as co-benefits.

5. WORLD MALARIA DAY

S.No	Date	Name of the activity	Place of activity
1	25.04.2021	World Malaria day	Cadets hometown

World Malaria Day is observed on April 25 every year. The day aimed at taking urgent action in the control of the deadly disease. Malaria is a life-threatening disease that is caused by the bites of infected mosquitoes. It is the Female Anopheles mosquitoes who spread the Plasmodium parasite through their saliva, which causes malaria. However, it is a preventable and treatable infectious disease. Many countries in the world are already working to create disease-less nations. Between 2000 and 2014, the number of malaria-related deaths fell by 40% worldwide. The world has made historic progress against malaria, saving millions of lives.

"Zero malaria starts with me" is the rallying cry for World Malaria Day 2021 on 25 April. The slogan was designed to keep malaria initiatives on the political agenda, mobilize resources by making the message more personal, and impress on communities and individuals to take ownership of certain aspects of malaria prevention. Ahead of World Malaria Day, country leaders, frontline health workers and global partners came together in a virtual forum held on 21 April to share experiences and reflections on efforts to reach the target of zero malaria. Despite the challenges posed by the COVID-19 pandemic, a number of these countries reported zero indigenous malaria cases in 2020, while others made impressive progress in their journey to becoming malaria-free.

Our NCC Cadets from our college created an awareness video to raise awareness and help educate our students to know about the risk associated with the disease. This year will mark World Malaria Day by celebrating the achievements of countries that are approaching ,achieving malaria elimination. Our NCC Cadets provide inspiration for all others who are working to stamp out this deadly disease and improve the health and livelihoods of their populations.

OUR NCC CADETS EXPLAINED ABOUT CAUSES OF MALARIA

The video player shows a diagram titled "Malaria Transmission Cycle". The cycle is as follows:

- Plasmodium gametocytes** (represented by male and female symbols) are taken up by a **First infected mosquito**.
- The mosquito then bites a **First infected person**, causing a **Liver infection**.
- The infection progresses to **Infected red blood cells**.
- A **Second infected mosquito** bites a **Second infected person**, completing the cycle.

The video player shows a diagram titled "Symptoms of Malaria" overlaid on a human torso. The symptoms are categorized as follows:

- Central**: - Headache
- Systemic**: - Fever
- Muscular**: - Fatigue, - Pain
- Back**: - Pain
- Skin**: - Chills, - Sweating
- Respiratory**: - Dry cough
- Spleen**: - Enlargement
- Stomach**: - Nausea, - Vomiting

2. World Earth Day

S.No	Date	Name of the activity	Place of activity
1	22.04.2021	World Earth Day	Cadets Hometown

Earth Day is commemorated every year to highlight environmental issues like loss of biodiversity, increasing pollution, etc. Changes in biodiversity affect ecosystem functioning and cause significant disruptions in ecosystems. "Tree Plantation Day " continuation of World Earth Day which was celebrated on 22 April 2021 as an international event celebrated around the world to pledge support for environmental protection. The year 2021 marks the 51st anniversary of the annual celebrations. This year's theme for Earth Day is 'Restore Our Earth' which focuses on natural processes, emerging green technologies, and innovative thinking that can restore the world's ecosystems. Our college mission is to protect, restore and enhance planting areas. It takes a holistic view on greening and focuses on multiple ecosystem services along with carbon sequestration and emission reduction as co-benefits.

Global warming, climatic changes are the major changes which causes the change in the atmosphere. Making green India is a important goal created by Our Honorable Prime Minister. The government has also allocated 6.2 billion for the tree-planting across the country. A Step ahead towards the promotion of green in our country and a role model to the others. Our National Cadet Corps cadets took a active role in their hands along with Staff members and management

planted saplings at Sengunthar Engineering College and also in their home to create green campaign. As a initiative to others, our College took this role to create eco-green environment which increases the level of oxygen and makes our green environment .Our aim is to protect, restore and enhance planting areas. It takes a holistic view on greening and focuses on multiple ecosystem services along with carbon sequestration and emission reduction as co-benefits.

On account of World Earth day NCC Cadets actively participated in Tree Plantation activity in their area

3.COVID AWARENESS FOR LOCAL PEOPLE

S.No	Date	Name of the activity	Place of activity
1	23.04.2021	COVID- Awareness for local people	Cadets hometown

Corona virus disease (COVID-19) is an infectious disease caused by the SARS-CoV-2 virus. Most people infected with the virus will experience mild to moderate respiratory illness and recover without requiring special treatment. However, some will become seriously ill and require medical attention. Older people and those with underlying medical conditions like cardiovascular disease, diabetes, chronic respiratory disease, or cancer are more likely to develop serious illness. The best way to prevent and slow down transmission is to be well informed about the disease and how the virus spreads. Wearing a properly fitted mask, and washing your hands or using an alcohol-based rub frequently. Get vaccinated when it's your turn and follow local guidance.

The virus can spread from an infected person's mouth or nose in small liquid particles when they cough, sneeze, speak, sing or breathe. These particles range from larger respiratory droplets to smaller aerosols. It is important to practice respiratory etiquette, for example by coughing into a flexed elbow, and to stay home and self-isolate until you recover if you feel unwell. As COVID-19 continues to affect lives and livelihoods around the world, we can already see that the pandemic and its economic fallout are having a regressive effect on gender equality. While most people's lives and work have been negatively affected by the crisis, our analysis shows that, overall, women's jobs and livelihoods are more vulnerable to the COVID-19 pandemic. Some sectors, such as manufacturing, in which men are a large majority of those employed have also been severely affected. Other sectors, such as education and healthcare, where women are the majority have suffered relatively little impact.

4. WORLD MALARIA DAY

S.No	Date	Name of the activity	Place of activity
1	25.04.2021	World Malaria day	Cadets hometown

World Malaria Day is observed on April 25 every year. The day aimed at taking urgent action in the control of the deadly disease. Malaria is a life-threatening disease that is caused by the bites of infected mosquitoes. It is the Female Anopheles mosquitoes who spread the Plasmodium parasite through their saliva, which causes malaria. However, it is a preventable and treatable infectious disease. Many countries in the world are already working for creating disease less nation. Between 2000 and 2014, the number of malaria-related deaths fell by 40% worldwide, the world has made historic progress against malaria, saving millions of lives.

"Zero malaria starts with me" is the rallying cry for World Malaria Day 2021 on 25 April. The slogan was designed to keep malaria initiatives on the political agenda, mobilize resources by making the message more personal, and impress on communities and individuals to take ownership of certain aspects of malaria prevention. Ahead of World Malaria Day, country leaders, frontline health workers and global partners came together in a virtual forum held on 21 April to share experiences and reflections on efforts to reach the target of zero malaria. Despite the challenges posed by the COVID-19 pandemic, a number of these countries reported zero indigenous malaria cases in 2020, while others made impressive progress in their journey to becoming malaria-free.

Our NCC Cadets from our college created a awareness video to raise awareness and help educate our students to know about the risk associated with the disease This year will mark World Malaria Day by celebrating the achievements of countries that are approaching ,achieving malaria elimination. Our NCC Cadets provide inspiration for all others who are working to stamp out this deadly disease and improve the health and livelihoods of their populations.
