Honoring Dr. K.L. Palanisamy's Physics Book Publication

Our Correspondent, Principal and Director- CRT applauded Dr. K.L. Palanisamy, Head of the Department of Physics, for publishing *A Textbook of Applied Physics for Engineering and Technology* for first-year students. This book is a significant resource for foundational studies in the field. This appreciation not only motivates the author but also inspires other faculty members to engage in similar endeavors.

Book Publication: Praise from the Institution's Luminary

Our **Correspondent** always supports faculty efforts and has warmly appreciated the contributions of Mrs. S. Bhuvana, Mrs. P. Sathya, Mrs. R. Chermakani, and Mrs. T. Rathika from the English Department. They published a book titled *Professional English* for first-year students. The recognition from our **Correspondent**, along with additional praise from **Principal** and **Director-CRT**, highlights the importance of faculty contributions to enriching the educational experience.

Innovative Head Gesture-Controlled Wheelchair

Our Robotics and Automation students are developing a head gesture-controlled wheelchair for quadriplegic patients. Using sensors like an accelerometer, gyroscope, and ultrasonic sensor, the wheelchair detects head movements for navigation, while AI technology helps avoid obstacles.

KRIAKSHETRA - Engaging Skill Training in Sudoku

Under the KRIAKSHETRA initiative, a skill training program on Sudoku using Scratch was conducted for first-year CSE students, led by Mr. Rajesh from the IT department and Perumala Maheshraj from CSE. This interactive session successfully attracted 30 eager participants, enhancing their programming and problem-solving skills in a fun and engaging way.
