Collaborative Learning

"The Department of Medical Electronics organized a two-day collaborative learning program on bioscience laboratory experiments. The event, held at the Microbiology Department of Sengunthar Arts & Science College (Autonomous), provided second-year Medical Electronics students with hands-on experience and insights into the critical role of bioscience laboratories in healthcare. The collaboration aimed to enhance students' practical skills through expert guidance."

Orientation Talk

The Principal delivered an orientation talk to the First Year Students, guiding students on academic goals and expectations. The session highlighted key institutional values, student responsibilities, and support services available. The session was intended to motivate and equip students for a successful academic journey.

GD Exposure

"The EEE and ECE departments conducted the 13th day of placement training with a focus on group discussions. The session was facilitated by Promho Company from Chennai. This initiative aims to prepare students for successful placements."

Mindsparc Innovations, an AICTE-approved program, is providing valuable insights on placement opportunities through its technologies group. Notably, our faculty members are scheduled to attend the session this evening to stay informed on the latest industry practices. Participants will learn about on-campus and off-campus placements, MNC eligibility criteria, and receive expert training.

“If you tell the truth, you don't have to remember anything.”
