## Celebration of Constitution Day in a Grand Display

NOVEMBER

26

### Samvidhan Divas Commemorated with Elocution Competition

The Department of Science and Humanities marked Samvidhan Divas by organizing an **Elocution Competition**, drawing active participation from 15 students. The event highlighted the importance of the Indian Constitution and encouraged thoughtful discourse.

Today, in commemoration of Samvidhan Divas, the Department of Science and Humanities organized an **Essay Writing Competition for first-year students on the topic "The Role of the Constitution in Shaping Modern India."** The event focused on highlighting the enduring relevance of constitutional values such as justice, equality, and freedom, particularly in the context of the digital age. It aimed to inspire students to embrace their rights and responsibilities as citizens in a vibrant democracy. A total of 25 students participated, showcasing their perspectives on how the Constitution continues to influence India's growth and governance.

## Students Achieve World Record for Mental Health Awareness Campaign

Students played a vital role in earning global recognition during the World Mental Health Day 2024 initiative. Kavi Priya, a first-year CSE student, and Kiruthika, a second-year AI & DS student, were instrumental in achieving this milestone, bringing immense pride to our college. It was organized under the theme *“Drug-Free Tamil Nadu”* by KPR Institute of Engineering and Technology college’s Mental Health and Happiness Club, the campaign ran from October 10 to December 10, 2024. It encouraged participants to create impactful videos promoting the slogan *“Choose Health, Not Drugs!”*. The campaign concluded on December 10 with a significant accomplishment: official certification as an Oscar World Record.

Conclusion of the three days seminar The primary mission of the pharmacy profession is to have a positive impact on the provision of public health service by ensuring the safe and effective use of medications. There are various facets to this mission, including the preparation and distribution of medications, as well as contact with patients and other members of the healthcare team. Optimal medication therapy requires a system to promote the desired clinical, humanistic and economic outcomes. Multidisciplinary healthcare teams are, which focuses on adaptable care that prioritizes the patient's best interests. The profession of pharmacy should become more focused on patient-centered care through the provision of medications and advice about the appropriate use of medicines.
