Feedback Analysis Report

The ideas of the Students, Parents, Alumni and Employers are given the prime focus in our college

Students Feedback

Student feedback is a key feature of the college to enhance the student's experience and to assure the Standards and quality of the college. Students Feedback collected from the students is used to plan and overcome the barriers in all aspects. All the departments obtain a feedback from every student at the end of the semester, covering all aspects, including the depth of subject preparation, clarity in the delivery of the Lecture, encouraging the students to ask questions, including interest in the student's progress, punctuality of the faculty member, pace of syllabus coverage and interaction with students etc. An elaborated questionnaire is prepared for the students' assessment. Based on the evaluation, the faculty members have given counseling who secured lesser than seven in the ten point scale. It is also probably helpful for both faculty members and students to start using the phrase "Feed-Forward" as this encourages both faculty members and students to focus on future learning.

Parents Feedback

Parents Feedback is collected from the parents to know about the pros and cons of the college. Feedback collected yearly once if necessary from them during Parents teachers Meet. After completion of internal test, the marks sent to the parents through letter and feedback received by them. The feedback are collected and recorded for constructive developments. A report is prepared and passed on to the Principal and Management for their information. The reflections of the meetings are incorporated in the plan.

Alumni Feedback

Alumni feedback is taken formally during the Annual meet and informally during Faculty- Alumni interaction. This institution maintains cordial relations with Alumni. Alumni are called as special invitees on every important and special occasion in the college. Rich experiences of them are utilized for the development of the Institution. Feedbacks from Alumni are also considered in the development aspects of the Institution. Alumni meetings are serving as a bridge between the Industry and the Institution.

Employers Feedback

The Feedback is obtained from the employers informally, when the students and the faculty members meet during the Industrial Visits. Feedback is collected and submitted to the Placement Director for the necessary changes. A detailed questionnaire is prepared and given to the employers and based on the evaluation, report made then submitted to Internal Quality Assurance Cell. The IQAC in the planning process considers feedbacks collected from all the stakeholders to prepare perspectives on development.
