

MSME Hackathon 5.0 Project Evaluation Conducted at Sengunthar Engineering College

Sengunthar Engineering College, Tiruchengode, successfully conducted the MSME Hackathon 5.0 project evaluation today at the Placement Seminar Hall and First Year Seminar Hall from 10:00 a.m. onwards. A total of 162 innovative projects were presented by students from various colleges across Tamil Nadu. The evaluation was carried out by a distinguished panel comprising three juries from TN Startup, two entrepreneurs, and two technical experts from reputed companies. After a rigorous assessment, 40 projects were selected as the best projects to move forward to the next stage. The event highlighted the spirit of innovation and entrepreneurship among students and provided them with a valuable platform to showcase their ideas...

On 18.08.2025, as per the directive of the Department of Higher Education, an awareness session was conducted for first-year engineering students on the Anti-Drug Mobile Application. The session explained how to download the app from the Google Play Store, its key features, and its purpose. All students successfully downloaded the app on their mobile phones and actively participated in understanding its usage.

The application helps students learn how to protect themselves from drug abuse and also provides a secure platform to report any drug-related activities directly to the concerned anti-drug authorities. Students were given a hands-on demonstration on how to navigate the app, its functionalities, and the process of submitting anonymous complaints if necessary. This initiative aims to create awareness and empower students to contribute towards building a drug-free campus environment.

நுவலிதமிழ்மன்றம் - தினம்ஒருதிருக்குறள்

குறள் 602

மடியை மடியா ஒழுகல் குடியைக்
குடியாக வேண்டு பவர்.
